ABOUT THE FUND

The Ophir Opportunities Fund seeks to provide investors with exposure to a high quality portfolio of emerging Australian companies listed outside the ASX 100. Employing an extensive fundamental bottom-up research process, the Fund focuses on identifying high quality businesses exposed to structural growth opportunities with the ability to deliver ongoing positive earnings revisions. With a bias toward cash generative businesses with sound balance sheets and high quality management teams, the Fund seeks to identify these opportunities early in a company's investment life cycle, when the listed equity is typically under-researched and under-valued by the broader investment market.
