**OPHIR GLOBAL OPPORTUNITIES FUND – CLASS A (UNHEDGED) AND CLASS H (HEDGED)
(ARSN 646 424 106)**

**PDS UPDATE AND INVESTOR NOTIFICATION - UPDATED ESTIMATED ONGOING ANNUAL FEES
AND COSTS REFLECTING THE FINANCIAL YEAR ENDED 30 JUNE 2025**

The Trust Company (RE Services) Limited, ABN 45 003 278 831, AFSL 235150 (**Responsible Entity**) is the responsible entity for the Ophir Global Opportunities Fund (**Fund**). Ophir Asset Management Pty Ltd, ABN 88 156 146 717, AFSL 420082 (**Manager**) is appointed as the investment manager for the Fund.

This notice (**Notice**) provides important information about the Fund and is issued by the Responsible Entity to notify you of updated estimated ongoing annual fees and costs in the product disclosure statement dated 10 July 2025 (**PDS**).

This Notice should be read in conjunction with the PDS and the Fund's Reference Guide dated 10 July 2025 (Reference Guide), any notices updating the PDS and the Reference Guide, and any information incorporated by reference. A copy of this Notice, the PDS, the Reference Guide and other information is available online at www.ophiram.com.au or free of charge, upon request by contacting the Manager or Responsible Entity.

This Notice provides estimated ongoing annual fees and costs based on updated estimated fees and costs reflecting the amounts incurred in the previous financial year ending 2025.

For Class A (Unhedged), for the financial year ending 2025:

- estimated management fees and costs have reduced from an estimated 1.43% p.a. as stated in the PDS to an estimated 1.39% p.a. (the reduction is a result of ordinary expenses reducing from 0.20% p.a. to 0.16% p.a.).
- estimated performance fees have reduced from an estimated 2.74% p.a. as stated in the PDS to an estimated 1.52% p.a.
- estimated transaction costs have increased from an estimated 0.55% p.a. as stated in the PDS to an estimated 0.68% p.a.

For Class H (Hedged), there were no changes to any estimated fees or costs as stated in the PDS for the financial year ending 2025.

All amounts are expressed as a percentage of the net asset value of the relevant class of units of the Fund.

This updated information is set out in Appendix 1 of this Notice and updates information in the following sections:

- Fees and costs summary table;
- Example of annual fees and costs; and
- Additional explanation of fees and costs.

If you have any questions regarding the above, please contact the Manager or the Responsible Entity using contact details provided the PDS.

Sincerely,

The Trust Company (RE Services) Limited

1. All fees are expressed as a percentage of net asset value (**NAV**) of the relevant class of units of the Fund and all fees are quoted inclusive of Goods and Services Tax (**GST**) and any Reduced Input Tax Credits (**RITC**). For additional information, please refer to the Reference Guide.

** All fees and costs for Class H reflect the Responsible Entity's reasonable estimates of the fees and costs for the current financial year as Class H is a newly established Class of units in the Fund.

- The amount of this fee can be negotiated if you are a wholesale client under the Corporations Act 2001.
- Management fees and costs comprise management fees, as well as expense recoveries and indirect costs determined as at the date of this PDS based on the actual expense recoveries and indirect costs for Class A units for the financial year ended 30 June 2025 and a reasonable estimate for this current financial year for Class H units.
- Transaction costs are determined as at the date of this PDS based on the actual transaction costs for Class A units for the financial year ended 30 June 2025 and a reasonable estimate for this current financial year for Class H units.
- Performance fees are based on Ophir's reasonable estimate as at the date of this update. The Class A estimate represents what typical ongoing performance fees may be in any given financial year having regard to Class A unit's actual performance averaged over the previous five financial years from 1 July 2020 to 30 June 2025. The Class H estimate is a reasonable estimate of the performance fee for this current financial year, adjusted to reflect a 12 month period. Performance is not guaranteed and a performance fee may not always be payable. The performance fee payable depends on the Class's performance against its benchmark. The level of performance against the benchmark can vary over time. Past performance is not a reliable indicator of future performance.
- The buy-sell spreads are current as at the date of this PDS and are included in the issue prices and withdrawal prices.

2. Example of annual fees and costs for the Fund

The following "Example of annual fees and costs" replaces the "Example of annual fees and costs" in section 6 of the PDS and contains the changes detailed on page 1 of this Notice.

This table gives an example of how fees and costs for Class A units can affect your investment over a one-year period. You should use this table to compare Class A units in this Fund with other managed investment products.

EXAMPLE – Ophir Global Opportunities Fund – Class A		Balance of \$100,000 with a contribution of \$5,000 during the year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.

PLUS Management fees and costs ¹	1.39% p.a. of NAV referable to Class A units	And , for every \$100,000 you have in the Fund you will be charged or have deducted from your investment \$1,390 each year.
PLUS Performance fees ²	1.52% p.a. of NAV referable to Class A units	And , you will be charged or have deducted from your investment \$1,520 in performance fees each year.
PLUS Transaction costs	0.68% p.a. of NAV referable to Class A units	And , you will be charged or have deducted from your investment \$680 in transaction costs.
EQUALS ³ Cost of Fund – Class A units	3.59% p.a.	If you had an investment of \$100,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of \$3,590. What it costs will depend on the fees you negotiate.

1. The example assumes that the value of the investment is constant during the year and that the \$5,000 additional investment occurs on the last business day of the year. Therefore, this cost does not include the management fees and costs charged on the additional \$5,000 investment. Please note this is an example only. In practice your actual investment balance will vary daily and the actual management fees and costs charged, which are based on the value of the Fund, will therefore also vary daily.
2. The performance fee example is based on Ophir's reasonable estimate as at the date of this update. The estimate represents what typical ongoing performance fees may be in any given financial year having regard to Class A unit's actual performance averaged over the previous five financial years from 1 July 2020 to 30 June 2025. Past performance is not a reliable indicator of future performance.
3. Please note that this example does not capture all the fees and costs that may apply to you such as the buy-sell spread.

If you would like to calculate the effect of fees and costs on your investment you can visit the ASIC website (www.moneysmart.gov.au) and use their managed investment fee calculator.

3. Additional explanation of fees and costs

In Part D: Additional Explanation of Fees and Costs in the Reference Guide:

- in 'Management fees and costs' the reference to the estimated management fees and costs for Class A units of 1.43% p.a. is replaced with 1.39%p.a.
- in 'Expenses' the reference to estimated ordinary expenses for Class A units of 0.20% p.a. is replaced with 0.16% p.a.
- in 'Transaction costs', the table for Class A and the paragraph below the table are replaced with the following:

Transaction Costs

Gross transaction costs over a financial year	0.74%
Recovery through buy/sell spread	0.06%
Net Transaction costs over a financial year borne by the Fund	0.68%

The net transaction costs for the Fund are estimated to be 0.68% p.a. of the net asset value of the Fund and is based on the transaction costs incurred during the financial year ended 30 June 2025. These represent net transaction costs borne by all investors in the Fund after any buy/sell spread recoveries charged on investor-initiated transactions. This amount will vary from year to year as it will be impacted by the volume of trading, brokerage arrangements, and other factors. The amount recovered through the buy-sell spread was calculated by the volume of applications and withdrawals

received by the Fund. We expect this amount to vary from year to year as it will be impacted by the volume of applications and withdrawals and any changes in the buy-sell spread for the Fund. The net transaction costs is the difference between these two amounts. All of these amounts are expressed as a percentage of the Fund's average net asset value for the year. Based on an average account balance of \$100,000 over a one-year period, the net transaction costs can represent up to approximately \$680.
